PROFESSIONAL EXPERIENCE

Frontend Developer

Alternative Technology | May 2022– Nov 2024

exploRUG

- Managed the flagship project tailored to client needs, serving 50+ active clients, each generating \$4,000 annually.

MYRUG.STUDIO & RUGDESIGN.STUDIO

- Led a team of 10 developers to build both platforms using exploRUG as the core engine, ensuring timely delivery and high performance.

Virtual Rug Exhibition

- Managed the VR-focused project to create an immersive experience for showcasing studio offerings.

Only1DollarDesign

- Contributed to the design and development of the platform, enhancing usability and functionality.

Rug Designer's Studio

- Created a portfolio site for a client as a goodwill gesture, improving their professional branding.

Other Contributions

- Set up and configured **Rocket.Chat** to enhance internal communication and collaboration within the company.
- Designed and implemented dashboards for tracking user hits and engagement metrics.

Javascript Developer Intern

Butwal Tech | Dec 2021 – Feb 2022

- Contributed to the development of components for the food delivery app "Saayog" using React.
- Worked closely with the UI/UX team, implementing designs from provided prototypes into functional components.
- Collaborated in creating responsive and user-friendly interfaces to enhance the overall app experience.
